Bulletin of the Atomic Scientists Index to Volume XXXIII, 1977

Authors

Abrams, Nancy Ellen, R. Stephen Berry, **Mediation, a Better Alternative to Science Courts,** April, 50-53.

Agnew, H. M., **A Plan to Lessen Suspicions,** March, 6-7; **A Primer on Enhanced Radiation Weapons,** Dec., 6-8.

Alfven, Kerstin, **A Conversation,** May, 43-44.

Arbatov, Georgi, **Dangers of a New Cold War,** March, 33-40.

Bacher, Robert F., **Nuclear Energy and Our Future,** March, 63-65.

Baltimore, David, et al., **A Threat to Scientific Research,** Dec., 9.

Barkenbus, Jack N., **Nuclear Energy and Ballot,** April, 4-5.

Barnaby, Frank, **Mounting Prospects of Nuclear War,** June, 10-20; **Continuing Body Count at Hiroshima and Nagasaki,** Dec., 48-53.

Barnett, T. P., **An Allegory,** Feb., 39.

Berry, R. Stephen, review of Tribe, Schelling, Voss, eds., **When Values Conflict: Essays on Environmental Analysis, Discourse and Decision,** March, 71-72.

Berry, R. Stephen, Nancy Abrams, **Mediation, a Better Alternative to Science Courts,** April, 50-53.

Bethe, Hans A., **Need for Nuclear Power,** March, 59-63; **Nuclear Power: A Safe Bet,** Sept., 55.

Black, Max, **Objectivity of Science,** Feb., 55-60.

Bresler, Robert J., Robert C. Gray, **Why Weapons Make Poor Bargaining Chips,** Sept., 8-9.

Cambridge (Mass.) Experimentation Review Board, report of citizens group, May, 22-27.

Caputo, Richard S., **Solar Power Plants: Dark Horse in the Energy Stable,** May, 46-48, 50-56.

Casper, Barry M., **Laser Enrichment: New Path to Proliferation?,** Jan., 28-41; **Congress and Cozy Triangles: Case of Energy,** May, 5; **Time for a Moratorium,** June, 56; **Scientists on the Hill,** Nov., 8-15.

Cassidy, Harold G., **Boundary Conditions in Energy and Ecology,** March, 31-32.

Chayes, Abram, William Epstein, Theodore B. Taylor, **A Surveillance Satellite for All,** Jan., 7.

Clayton, Bruce Douglas, **Planning for Day After Doomsday,** Sept., 49-53.

Clinton, Richard Lee, **Never-to-be-Developed Countries of Latin America,** Oct., 19-26.

Coulam, Robert F., **Inter-Service Weapons Rivalry,** June, 25-36.

Dahlberg, Richard C., **Case for Plutonium Recycle,** May, 58-59.

Davidon, Ann Morissett, **Macho Obstacles to Peace,** June, 22-24.

Day, Samuel H., Jr., **Converting Weapons Labs,** Jan., 27; **Henry Kissinger: So Near and Yet So Far,** Feb., 5; **Nuclear Debate at Gut Level,** March, 57-58; **Nuclear Weapons Labs,** April, 21-26, 28-32; **Toward A More Fragrant World,** May, 6-7; review of Cox, **Overkill;** review of Lens, **The Day before Doomsday,** Sept., 63-64; **Our Contributors,** Oct., 11; **Swords and Plowshares,** Nov., 4; **A Farewell,** Dec., 4.

Dharma-wardana, M. W. C., **Self-Help for Third World Scientists,** Feb., 22-23.

Dickeman, R. L., **Case for Continued Laser Uranium Enrichment,** June, 54-56.

Dowling, John Jr., **Nuclear Debate in Film,** Feb., 52-53.

Drell, Sidney D., **Beyond SALT II—A Missile Test Quota,** May, 34-42.

Eklund, Sigvard, **"We Must Move Forward With All Deliberate Speed,"** Oct., 42-47.

Ellis, William N., **A. T.: Quiet Revolution,** Nov., 25-29.

Epstein, Samuel S., **Cancer and Environment,** March, 22-30; **Case for a Consumer Protection Agency,** Sept., 6-7.

Epstein, William, **Time to Bury "Deterrence,"** June, 6-7.

Epstein, William, with Abram Chayes, Theodore B. Taylor, **A Surveillance Satellite for All,** Jan., 7.

Etzioni, Amitai, **Creative Response to Our Crisis,** Feb., 24.

Fartash, M., **"Disarmament Club" at Work,** Jan., 57-62.

Feiveson, Harold A., review of Rotblat, **Nuclear Reactors: To Breed or Not to Breed,** June, 63-64.

Feld, Bernard T., **1976-77: Time for a Shock,** Jan., 8-9; **Nuclear Dilemma Revisited,** Feb., 7; **Way to Begin is to Stop,** March, 9; **An International Challenge,** March, 5; **Hard-Nosed but Soft-Headed,** April, 9; **Let's Not Panic Prematurely,** May, 8-9; **A Far-Sighted Energy Program,** June, 9; **Good News and Bad,** Sept., 10-11; **Neutron Bomb,** Sept., 11; **Ode to Diversity,** Oct., 10-11; **SALT Stalemate,** Nov., 7; **Energy and Politics,** Dec., 12-13; **Jaw, Jaw, Jaw,** Dec., 13.

Feld, M. D., review of Yergin, **The Shattered Peace: The Origins of the Cold War and the National Security State,** Dec., 58-60.

Fine, Jacob, **Rx: A Peer Review System for Physicians,** Sept., 38-43.

French Atomic Energy Commission, **A Natural Fossil Nuclear Reactor,** Feb., 40-41.

Gardner, John, **Gang of Four and Chinese Science,** Sept., 24-30.

Garrett, Stephen D., **Detente and Military Balance,** April, 10-20.

Gottstein, Klaus, **Nuclear Energy for Third World,** June, 44-48.

Goudsmit, S. A., **An Irrelevant Debate,** March, 67.

Gray, Robert C., Robert J. Bresler, **Why Weapons Make Poor Bargaining Chips,** Sept., 8-9.

Greb, G. Allen, Herbert F. York, **Military Research and Development: A Postwar History,** Jan., 12-26; **Strategic Reconnaissance,** April, 33-40.

Green, Harold P., **Oppenheimer Case: A Study in the Abuse of Law,** Sept., 12-16, 56-61.

Haggerty, Robert J., review of Illich, **Medical Nemesis: The Expropriation of Health,** Feb., 62-63.

Highland, Virgil L., **Fire Safety Controversy,** Oct., 54-55.

Hoagland, Hudson, **Brain Evolution and Biology of Belief,** March, 41-44.

Holdren, John P., review of Ford Foundation/MITRE Nuclear Energy Policy Study Group, **Nuclear Power: Issues and Choices,** June, 58-63.

Hopkins, John C., **Why Not Stop Testing?** April, 30-31.

Hornig, Donald F., review of Kistiakowsky, **A Scientist at the White House,** April, 62-64.

Hudson, Richard, **International Struggle for a Law of the Sea,** Dec., 14-20.

Humphrey, J. H., **Challenge of Parasitic Diseases,** March, 47-53.

Jack, Homer A., **Disarmament Scoreboard,** March, 54-58.

Kaldor, Mary H., **Military Technology and Social Structure,** June, 49-53.

Kantrowitz, Arthur, **Science Court Experiment: Criticisms and Responses,** April, 44-48, 50.

Kastler, Alfred, **Challenge of the Century,** Sept., 20-22.

Klare, Michael T., **America's Top Arms Merchants,** June, 20-21.

Koenig, M. E. D., **Toy Theory of Western History,** Oct., 16-18.

Kornetchuk, Elena, **Politics of Soviet Art,** Oct., 32-37.

Kowarski, Lew, **Conditions of Success in International Enterprises in Science and Technology,** Sept., 44-48.

Lall, Betty Goetz, **Mutual Deterrence: Need for a New Definition,** Dec., 10-11.

Lefkowitz, Louis J., **A Legal Officer's Dilemma,** May, 11; **New York State DNA Bills,** May, 21.

Loraine, John A., **Time for Doctors to Take a Stand on Nuclear Proliferation,** Oct., 6-7.

Luria, S. E., **Goals of Science,** May, 28-33.

McCahon, Jim, Murray Robertson, **Nuclear South Pacific: Can it be Averted?** April, 26-27.

McNamara, Robert S., **A Pittance for International Aid.,** Nov., 36-38.

Subject

Accelerators, nuclear proliferation, and, Sept., 3-4; Dec., 3.
American Security Council, film produced by, March, 56-58 *passim*.
Appropriate technology, the quiet revolution, Nov., 24-29. *See also* Intermediate technology.
Arms control: balanced limitations on missile test firings proposed, May, 34-42; impact statements, Jan., 5; myths, Sept., 49-53.
Arms control agreements, information exchange mechanism proposed, March, 6-7.
Arms exports: top 15 U.S. companies receiving DOD awards for foreign military sales, June, 20-21; as transfer of a social system, June, 49-53.
Arms race: Pugwash statement (Munich) on new and more dangerous round in, Nov., 6; slowing the, Sept., 4-5; 3-year moratorium proposed on new deployments and testing, March, 9.
Art, politics of Soviet, Oct., 32-37.

B-1 bomber, Sept., 10.
Beadle, George Wells, Oct., 48-50.
Biogas, production of: in China, Feb., 28-31 *passim.*
Bi-service weapon systems, history of F-A, F-111, and A-7 programs, June, 25-36.
Brain, religious beliefs and evolution of, March, 41-44.
Brazil, ecological fight in, Oct., 2.
Cambel report on Energy R&D, Jan., 2.
Cancer, environment and, March, 22-30.
Carbon dioxide, Earth's atmosphere and build-up of, Oct., 13-14.
CCD (Conference of Committee on Disarmament), work of, Jan., 57-62.
CERN, as example of successful international scientific enterprise, Sept., 44-48.
Chemical industry, myths spawned within, March, 29.
China: gang of four and science in, Sept., 24-30; intermediate technology in, Feb., 25-31.
Civil defense: myths about nuclear war and, Sept., 49-53; film on need for, March, 56-58; Soviet and U.S. programs, May, 39-41.
Cold War, dangers of a new, March, 33-40.
Committee on the Present Danger, June, 2.
Congressional science fellowship programs, Nov., 8-15.
Consumer protection agency, Sept., 6-7.
Cruise missiles, Sept., 10-11.
Detente: military balance and, April, 10-20; Soviet warning on collapse of, Nov., 33-40; victim of mutual suspicion, Nov., 16-19.
Deterrence: myth, Sept., 49-53 *passim;* need for a new definition of, Dec., 10-11; time to bury, June, 7.
Development: assistance for, Nov., 36-38; concepts of, Oct., 19-31; historical view of, Oct., 26-31; in Latin America, Oct., 19-26; U.N. Conference on Science and Technology for (forthcoming), Dec., 21-32.
Disarmament: scoreboard on, March, 54-58; work of Committee on (CCD), Jan., 57-62.
Disarmament Decade, March, 54-58 *passim.*
Doomsday, planning for day after, Sept., 49-53; Dec., 2-3.
Ecology and energy, boundary conditions in, March, 31-32.
Economic challenges, need for a creative response to, Feb., 24.
Electricity, generation of: direct use of solar energy in large central power plants for, May, 46-48, 50-56.
Energy: Congress and, May, 5; politics and, Dec., 12-13.
Energy consumption, scenarios on, March, 59-62 *passim;* Sept., 54-55.
Energy crisis, a creative response to, Feb., 24.
Energy and ecology, boundary conditions in, March, 31-32.
Energy R&D, Cambel report on, Jan., 2.
Energy resources, boundary conditions of, March, 31-32.
Enhanced radiation weapons: European letter to President Carter on, Dec., 7; primer on, Dec., 6-8; as tactical weapons in Europe, Sept., 32-37.
Environment: cancer and, March, 22-30; crisis in Japan, Jan., 63-64; effects of nuclear weapons testing and, Jan., 53-54.
Environmental warfare, Feb., 36-37 *passim.*
Food crops, genetic reservoirs threatened, Feb., 8-16.
Foreign policy, American: detente and, April, 10-20 *passim;* "mood theory" of, April, 10-20 *passim;* **Soviet:** detente and, April, 10-20 *passim.*
Hiroshima, continuing body count at Nagasaki and, Dec., 48-56.
History, toy theory of Western, Oct., 16-18.
Human rights, in South America, March, 8; Oct., 3.
Hydrogen bombs, a visit to a SAC (Titan II) missile base, May, 43-44.
India, satellite TV experiment and, Jan., 55-56.
Intermediate technology, in China, Feb., 25-31. *See also* Appropriate technology.
International Atomic Energy Agency (IAEA), director-general's report (at Salzburg), Oct., 42-44.
International enterprises in science and technology, conditions for success of, Sept., 44-48.
International Peace Bureau, report of team studying damage and after-effects of Hiroshima and Nagasaki bombings, Dec., 54-56.
Israel, science policy visit to, March, 10-21.
Kissinger, Henry, Feb., 4-5.
Laser isotope separation: new approach to obtaining enriched uranium, Jan., 28-41; April, 3; June, 54-56; Oct., 8-9.
Latin America, never-to-be-developed countries of, Oct., 19-26.
Law of the Sea, international struggle for a, Dec., 14-20.
Less developed countries (LDC), science in, Feb., 22-23.
Medical care, public concern about quality of, Sept., 38-43.
Mid-Peninsula Conversion Project, Nov., 4-5.
Military capabilities of U.S. and USSR, detente and, April, 10-20.
Military expenditures, SIPRI report of world, June, 10-20 *passim.*
Military R&D, political and psychological fallout of, Feb., 32-38. *See also* Science and the Military.
Military technology, social structure and, June, 49-53.
Missile base, visit to, May, 43-44.
Missile tests, quota proposed on, May, 34-42; Oct., 2-3.
Mood theory, U.S. foreign policy and, April, 10-20.
Multinationals, as agents of social development, Nov., 30-32, 34-35.
Nagasaki, continuing body count at Hiroshima and, Dec., 48-56.
NATO defense doctrines, enhanced radiation warfare and, Sept., 32-37.
Neutron bomb. *See* Enhanced radiation weapons.
Non-Proliferation Treaty, Indian view of, Feb., 17-21.
No survivors myth, Sept., 49-53 *passim.*
Nuclear domino theory, Feb., 17-21 *passim.*
Nuclear energy: disaster insurance, April, 56-57; June, 3-5; films on, Feb., 52-54; future development of, April, 54-60; perspective on potential hazards of, April, 54-60; phases of (burner/breeder), April, 54-60; for Third World, June, 44-48; U.S. policy, Oct., 38-41; without weapons proliferation, Nov., 39-44.
Nuclear energy debate: in Europe, Dec., 40-47; in film, Feb., 52-54; in France, Dec., 2; at gut level, March, 56-58; proposals to serve as basis for compromise, April, 54-60; state initiatives, April, 4-5; views of BAS sponsors on, March, 59-69; May, 2; Dec., 4-5.
Nuclear explosions, some will be necessary, Oct., 51-54.
Nuclear exports, cartel proposed, Jan., 42-50.
Nuclear industry, international, June, 10-20 *passim.*
Nuclear and near nuclear nations, Nov., 41.
Nuclear reactor, natural fossil (Oklo), Feb., 40-41.
Nuclear reactor safety study (Rasmussen report), Feb., 42-47.
Nuclear tests, anti-test-ban coalition, Jan., 51-54.
Nuclear war: films on, Feb., 52-54; March, 56-58; mounting prospects of, June, 10-20; myths about, Sept., 49-53; Soviet physicist on dangers of, Nov., 20-23; statements of Philip Noel-Baker, Alfred Kastler and Sean MacBride on peace and, Sept., 17-23; vengeance, Feb., 48-51.
Nuclear-weapon-free-zones, Feb., 20-21 *passim;* in South Pacific, April, 26-27.
Oklo phenomenon, Feb., 6, 40-41.
Oppenheimer case, a study in abuse of law, Sept., 12-16, 56-61.
Parasitic diseases, challenge of, March, 46-53.
Peace: macho obstacles to, June, 22-24; statements of Philip Noel-Baker, Alfred Kastler and Sean MacBride on war and, Sept., 17-23.
Peer review system, medical, Sept., 38-43; objections to, Sept., 42.
Plant germplasm, endangered resource, Feb., 8-16.
Plutonium: EPA standards on release of, Jan., 6-7; toxicity of, Jan., 7; April, 6, 8.
Plutonium economy, May, 58-59.
Plutonium reprocessing, Carter administration's decision to postpone, Oct., 38-41.
Project Columbus 1992, March, 4-5.
Proliferation, nuclear: atomic 'shock treatment' may be only cure, Oct., 51-54; Indian view of NPT treaty, Feb., 17-21; laser enrichment as new path to, Jan., 28-41; nuclear power without, Nov., 39-44; plea for medical profession to take a stand on, Oct., 6-7; market-sharing scheme proposed to halt, Jan., 42-50. *See also* Weapons-grade materials.

Pugwash Council: arms race (Munich), Nov., 6; peace and security in a changing world (Munich), Dec., 33-39.
Radiation casualty criteria, U.S. Army's new, Sept., 35.
Rasmussen report, looking back on (1974 reactor safety study), Feb., 42-47.
Recombinant DNA research: in Britain, Oct., 4-5; Cambridge Experimentation Review Board (citizens group), May, 22-27; discussion of guidelines on, May, 10-33; Sept., 2; Oct., 4-7; an imaginary monster, May, 12-13; legal officer's dilemma, May, 11; members of U.S. National Academy of Sciences on, Dec., 9; New York State Legislature and, May, 10-11, 21.
Reconnaissance, strategic: history of U.S., April, 33-42; international consortium proposed, Jan., 7; U-2 and, April, 33-42 *passim.*
Religious beliefs, evolution of brain and, March, 41-44.
SALT II, beyond, May, 34-42.
Satellites: communication, Jan., 55-56. *See also* Reconnaissance.
Satellite programs, U.S.: history and comparison of, April, 33-42 *passim.*
Science: goals of, May, 28-33; objectivity of, Feb., 55-60.
Science Court, discussion of proposals for, April, 43-53; procedures of, April, 45.
Science and the Military (BAS series on), Kosta Tsipis (ed.), Jan., 10-11; Feb., 32; April, 41; June, 30-31:

—Inter-Service Weapons Rivalry, Robert F. Coulam, June, 25-36.
Science and society, recombinant DNA research issue, May, 10-33.
Science and trans-science, Feb., 4-6, 64; May, 3-4.
Security, international: nuclear issue and, Feb., 17-21.
Self-reliance movement: health care and, Feb., 62-63; U.S. disaster planning and, Sept., 49-53 *passim. See also* Appropriate technology and Intermediate technology.
SITE (Satellite Instructional Television Experiment), Indian phase of NASA program, Jan., 55-56.
Solar energy technologies (BAS series on):
—Solar Power Plants: Dark Horse in Energy Stable, Richard S. Caputo, May, 46-48, 50-56;
—Toward a Solar Civilization, Frank von Hippel and Robert H. Williams, Oct., 12-15, 56-60.
Solar thermal energy, generation of electricity in large central power plants by direct use of, May, 46-48, 50-56.
South Pacific, nuclear, April, 26-27.
Space, establishment of manufacturing facilities in, March, 4-5.
Sri Lanka, problems of a Third World scientist from, Feb., 22-23.
Stockholm International Peace Research Institute (SIPRI), report of, June, 10-20.
Survival research, need for, Sept., 49-53 *passim.*
Test ban, comprehensive: forces against, Jan., 5l-54.
Third World: appropriate technologies in, Nov., 24-29; development prospects in, Oct., 19-31; impact of transfer of military technology to, June, 49-53; intermediate energy technology in China, Feb., 25-31 *passim;* multinationals as agents of social development in, Nov., 30-32, 34-35; nuclear energy for, June, 44-48; parasitic diseases in, March, 46-53; pittance for international aid in, Nov., 36-38; scientists in, Feb., 22-23.
Toy theory of Western history, Oct., 16-18.
U.C. Nuclear Weapons Lab Conversion Project (Ca.), April, 21-32 *passim.*
U.N. Conference on Science and Technology for Development, Dec., 21-32.
Uranium: new approaches to laser enrichment of, Jan., 28-41; supply, March, 62; Sept., 54-55.
USSR: Academy of Sciences in, Oct., 10-11; American correspondent's analysis of relations between U.S. and, Nov., 16-19; dangers of a new Cold War, according to Whitehousologist, in March, 33-40; military strength of, April, 10-20 *passim;* position of Soviet physicist on nuclear war, Nov., 20-23; unofficial art and artists in, Oct., 32-37; U.S. military R&D, according to scientists in, Feb., 32-38.
Vengeance, nuclear, Feb., 48-51.
Warnke, Paul, nomination as ACDA director, April, 9.
Weapons: duplication problem, June, 25-36; genetic, Feb., 35-36; geophysical, Feb., 36-37; inter-service rivalry and development of, June, 25-36; nerve-paralyzing, Feb., 36; production of new types of, Feb., 32-38; Soviet scientists on new U.S., Feb., 32-38.
Weapons, nuclear: as bargaining chips, Sept., 8-9; films on building, using and living with the bomb, Feb., 52-54; need for and arms control impact of, May, 34-42; the real problem, March, 69; support for continuing the development and testing of, Jan., 51-54; weapons designer's view on testing of, April, 30-31. *See also* Enhanced radiation weapons.
Weapons-grade materials: control of, June, 37-43; critical masses of, June, 39.
Weapons laboratories, nuclear: conversion of, Jan., 27; April, 21-32; Nov., 4-5; work of, April, 21-32.
Western history, toy theory of, Oct., 16-18.
World Bank, programs of, Nov., 36-38.

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

(Act of August 12, 1970): Section 3685
Title 39, United States Code

Date of filing: Sept. 8, 1977

Title: **Bulletin of the Atomic Scientists**

Frequency of issue: Monthly, except July and August

Location of known office of publication: 1020-24 East 58th Street, Chicago, Ill. 60637

Location of headquarters of publisher: 1020-24 East 58th Street, Chicago, Ill. 60637

Publisher: James P. Cahill 1020-24 East 58th Street, Chicago, Ill. 60637

Owner: Educational Foundation for Nuclear Science, Inc., 1020-24 East 58th Street, Chicago, Ill. 60637 (non-profit; no stock issued)

Editor: Samuel H. Day, Jr., 1020-24 East 58th Street, Chicago, Ill. 60637

Managing Editor: Susan A. Cullen 1020-24 East 58th Street, Chicago, Ill. 60637

Known bondholders, mortgages, and other security holders: None

	Average no. copies each issue preceding 12 months	Single issue nearest to filing date
A. Total no. copies printed (net press run)	25,000	24,000
B. Paid circulation		
1. Sales through dealers and carriers, street vendors and counter sales	600	660
2. Mail subscriptions	22,000	21,000
C. Total paid circulation	22,600	21,660
D. Free distribution by mail, carrier or other means	620	600
E. Total distribution (Sum of C & D)	23,220	22,260
F. Copies not distributed		
1. Office use, left over, unaccounted, spoiled after printing	1,480	1,440
2. Returns from news agents	300	300
G. Total (Sum of E & F)	25,000	24,000
